

Jade Andrews

Interior Design Portfolio

About me:

I am a Graduate Interior Designer from Solent University who is driven by my desire to positively impact the world and the people living in it.

I have a huge love for fantasy and making the impossible possible, tapping into people's inner child and creating whimsical spaces that give people a memorable, once in a lifetime experience.

My Skills:

Vectorworks	●●●●●○
InDesign	●●●●●●
AutoCAD	●●●○○○
Photoshop	●●●●●●
Illustrator	●●●○○○
Sketch Up	●●●○○○
Microsoft	●●●●●○
Twinmotion	●●●○○○
Lumion	●○○○○○

“I strive to create fun and impactful environments that will raise mental and physical health, by positively impacting the world we live in, sustainably.”

1 Hospitality Design

Portsmouth Restaurant & Club

The Concept & Mood

A gorgeous contemporary Japanese inspired restaurant and club. Designed as part of a student based entertainment shopping centre in Gunwharf Quays, Portsmouth.

GARDEN & RESTAURANT

CLUB & BAR

The Plans

Luxury materials, plush bespoke booths and carefully picked light fittings incorporates the essence of classy but fun perfectly into this space, offering customers a lavish experience without the deep formalities you would find in other classy restaurants.

Continuing the theme of the restaurant, the club offers a fun, exciting experience like no other. Fit for purpose materials with a luxurious aesthetic have been considered over every inch of this smart but wild space.

From the moment you walk into the reception the lavish, fun and exciting atmosphere radiates from the unique light fixtures and modern materials.

CLUB ASOKA

3D Views

A variety of 3D visuals to show off my club and restaurant design for a new entertainment, student based shopping centre in Gunwharf Quays, Portsmouth.

CLUB ASOKA

New Forest Holiday Lodges

in partnership with Park Plaza Hotel Group

The Concept & Mood

A fantastical holiday park that feels like you're camping out under a waterfall in the heat of the midsummer sun.
This site is positioned in a beautiful woodland clearing at The New Forest, Southampton.

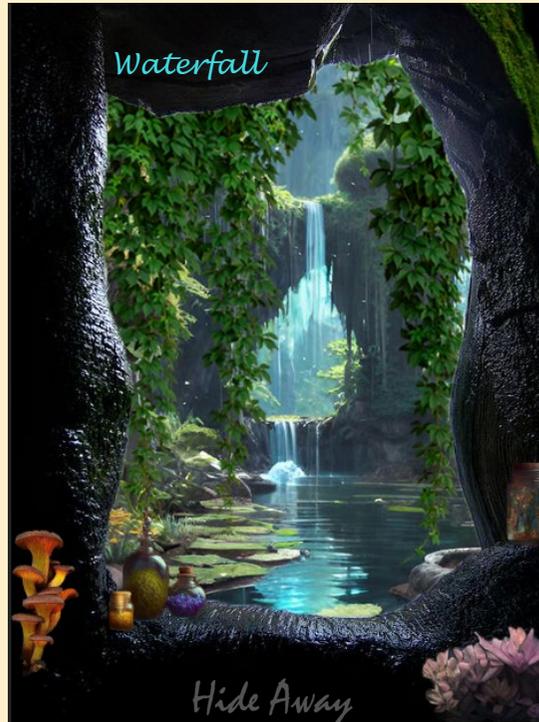

Lodge - Bathroom

Lodge - Living areas

Waterfall

Hide Away

Clubhouse - Bar & Restaurant

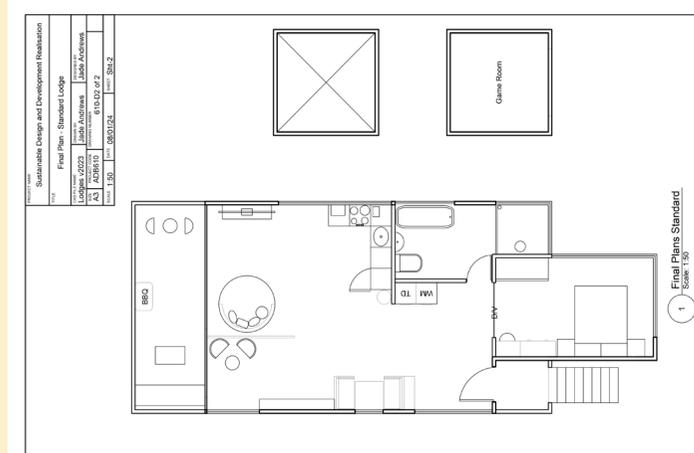

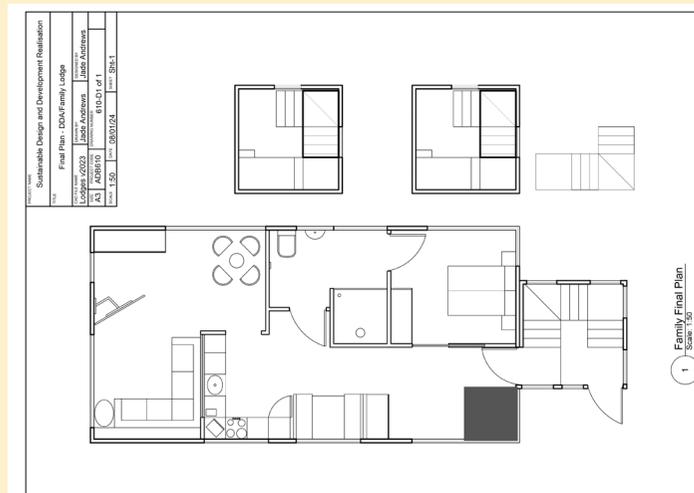

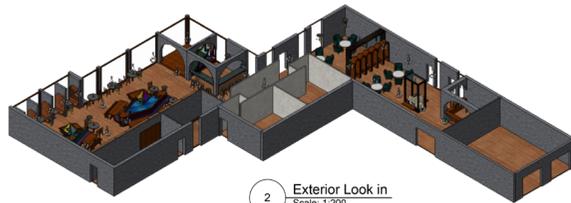

Clubhouse - Reception & Lounge

The Plans

Rustic, natural materials with pops of colour are used to sell the illusion of taking shelter under a calm waterfall, creating a blissful atmosphere smothered in adventure and peaceful seclusion. Bringing the customer on a journey away from their usual stressful environments, to a place where they can enjoy the simplicity of nature's calming beauty.

From the moment you walk into both spaces, a layer of relaxing, whimsical joy bounces peacefully through the surrounding atmosphere.

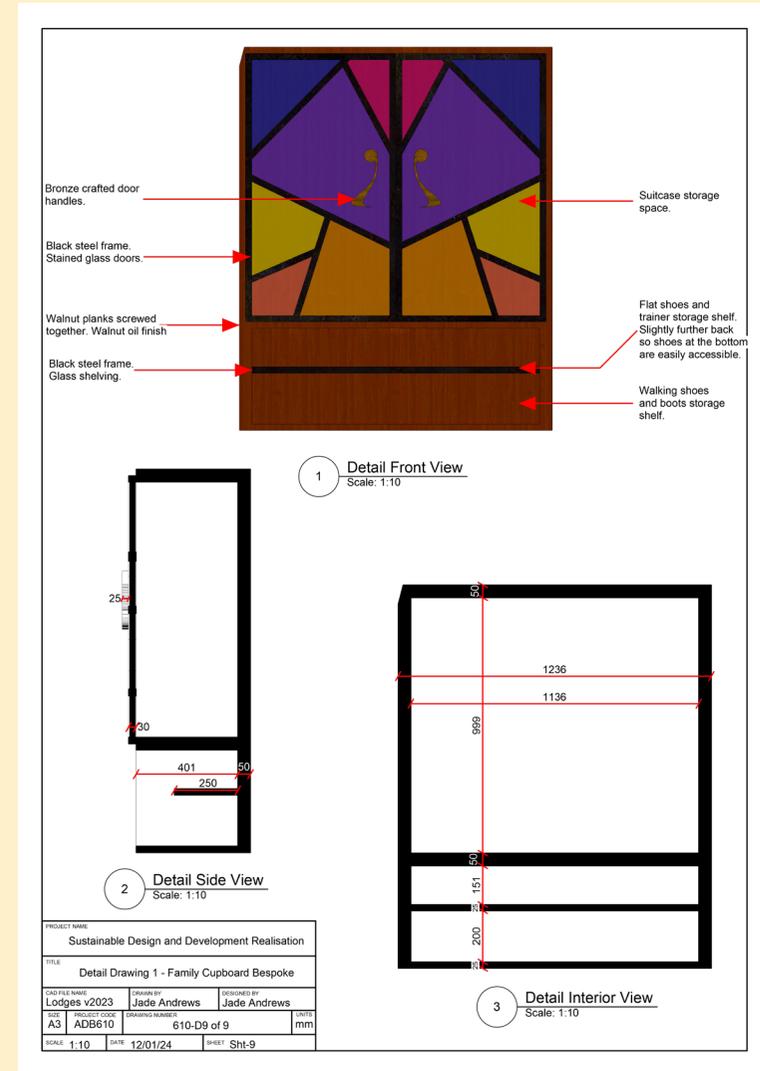

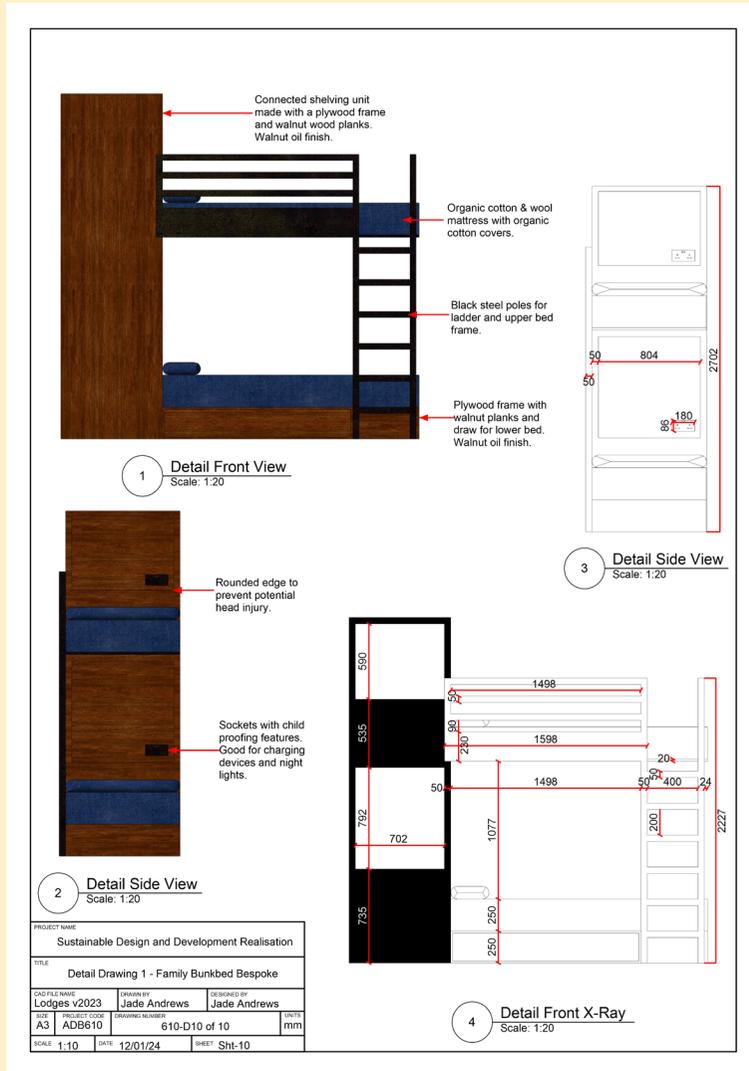

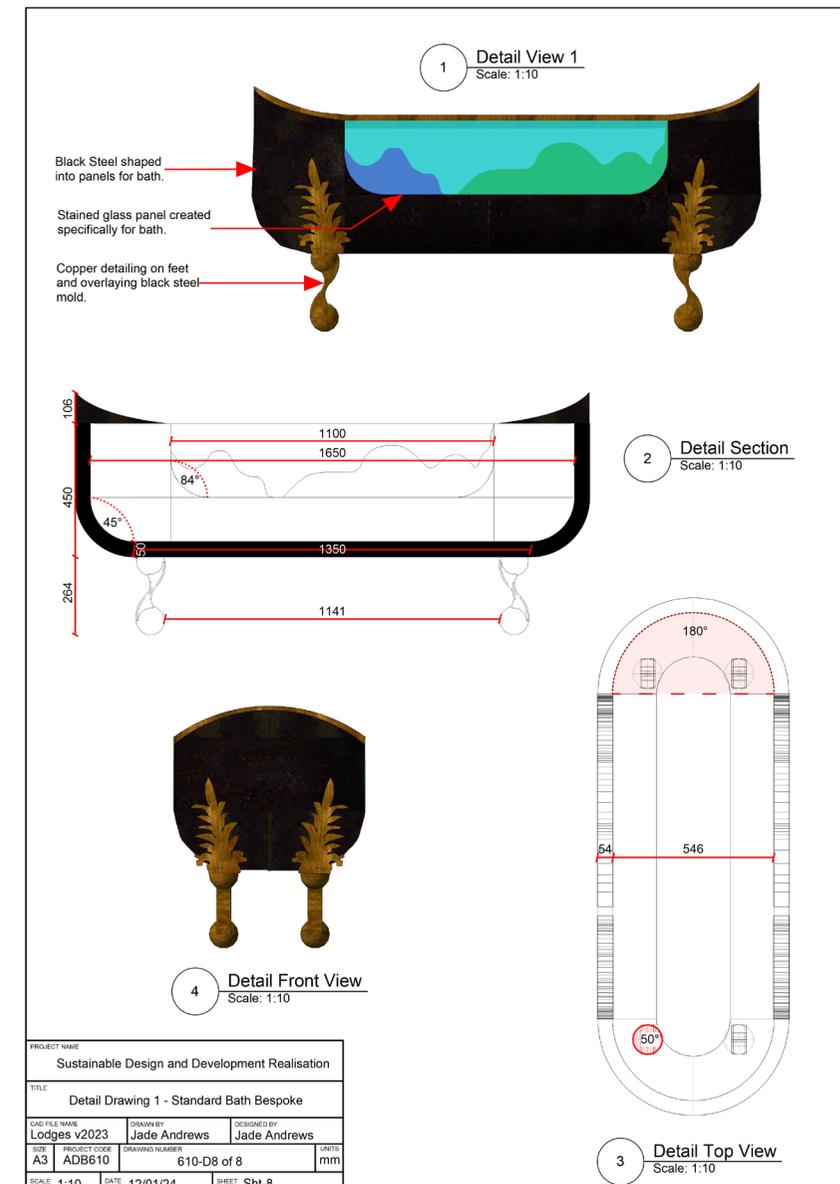

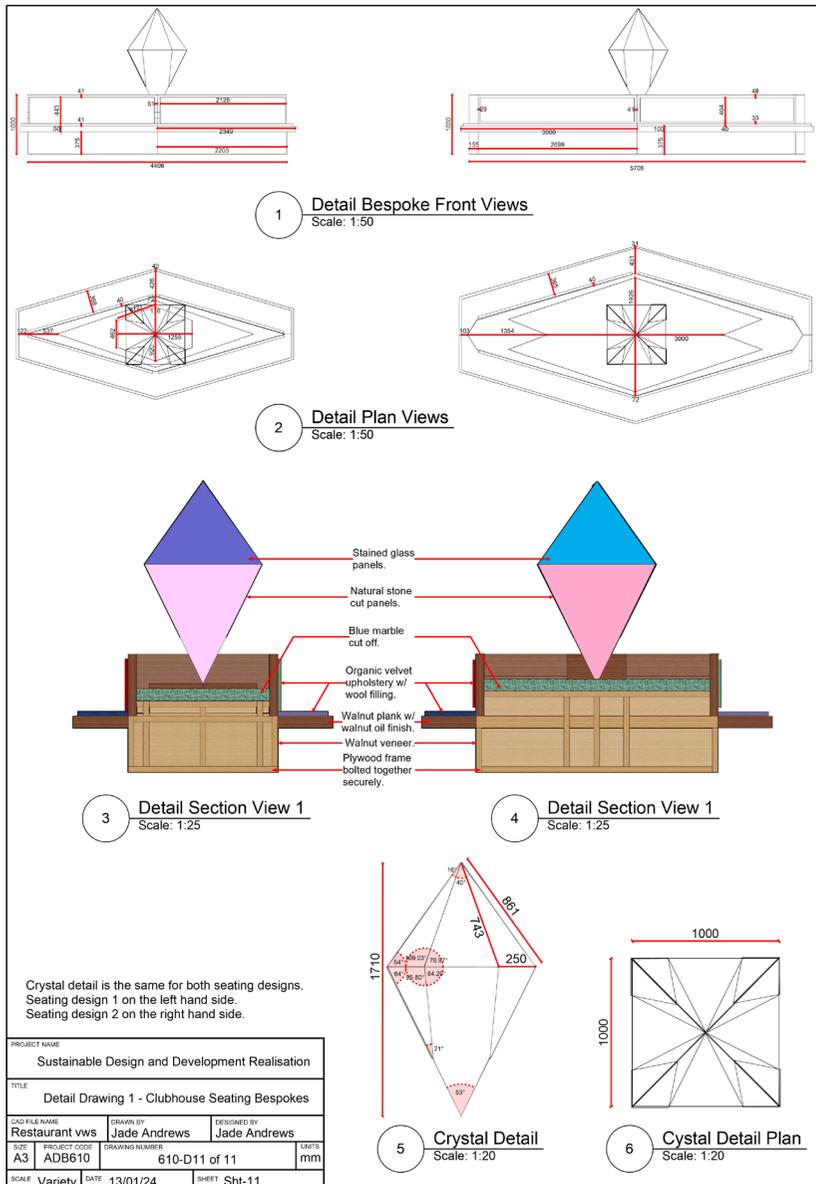

Bespoke Technical Drawings

Technical drawings that recreate the journey each specially crafted bespoke piece went through, and the materials used to make them.

Every space has its own unique bespoke with individual moods and specific purpose in its designated space.

Bespoke Technical Drawings

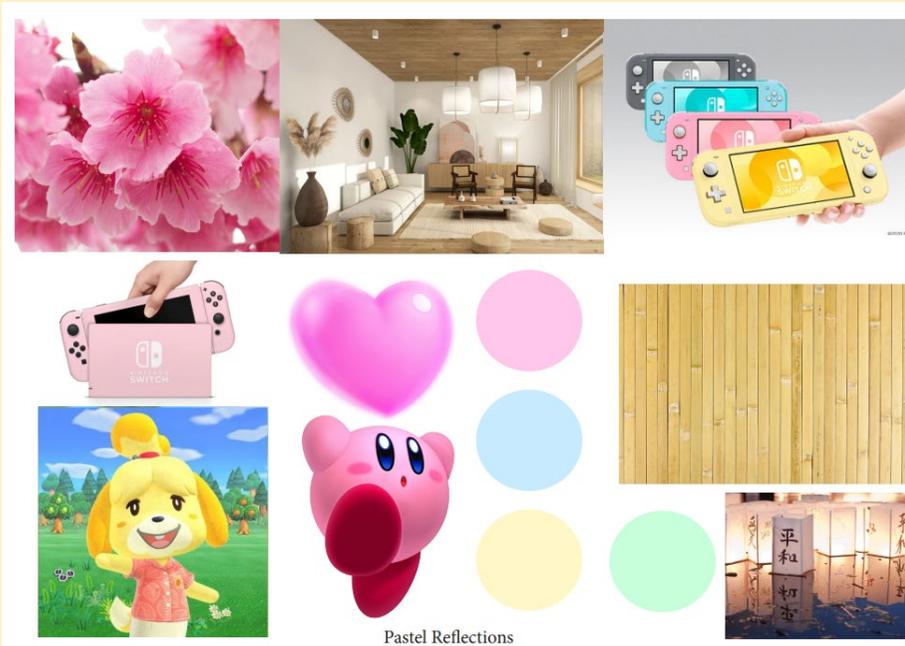

2 Retail
Design

Nintendo Store Design

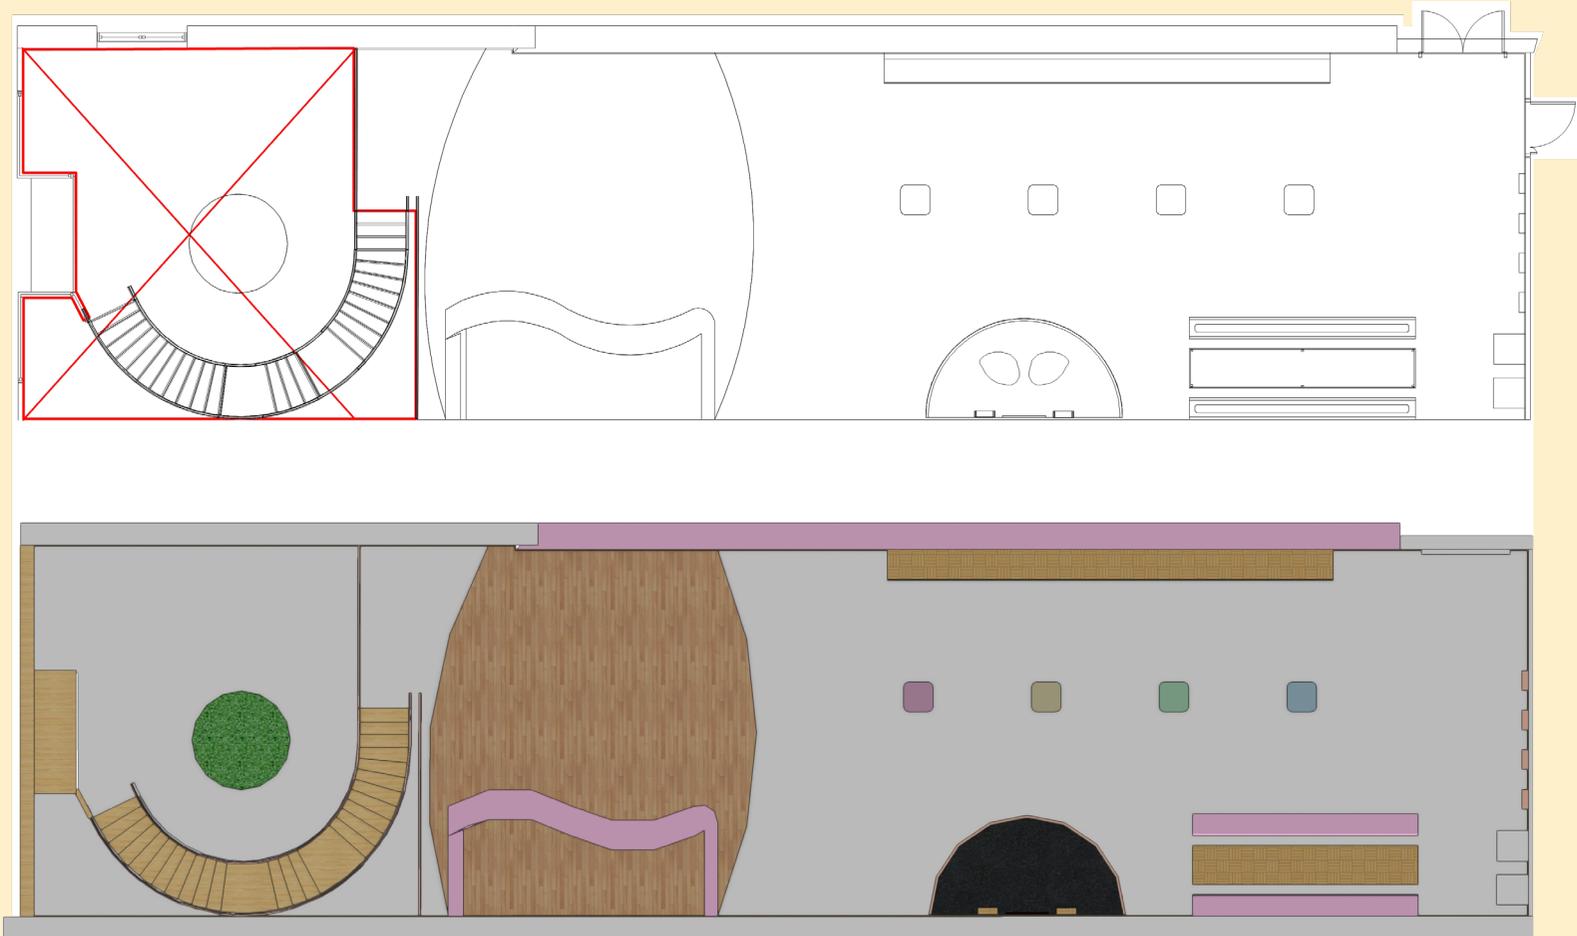

The Concept & Mood

A modernistic retail design for a new Nintendo store opening in Southampton Town Centre. Inspired by the origins of the company, Japan, during the spring season.

The Plans

Pretty pastel colours and smooth reflective materials cover this space from head to toe, broken up by the popular native Japanese wood, bamboo. This design is the embodiment of nostalgia surrounding Nintendo's products and attracts all age groups with its elegant details.

The nostalgia and child-like fun waves over you as you behold this clean, positive shop floor that embodies the carefree essence of childhood.

3D Views

Rendered views from the gracious interior of this fun and colourful retail design for Nintendo.
The effects of lighting in this space are phenomenal with their subtlety and character.

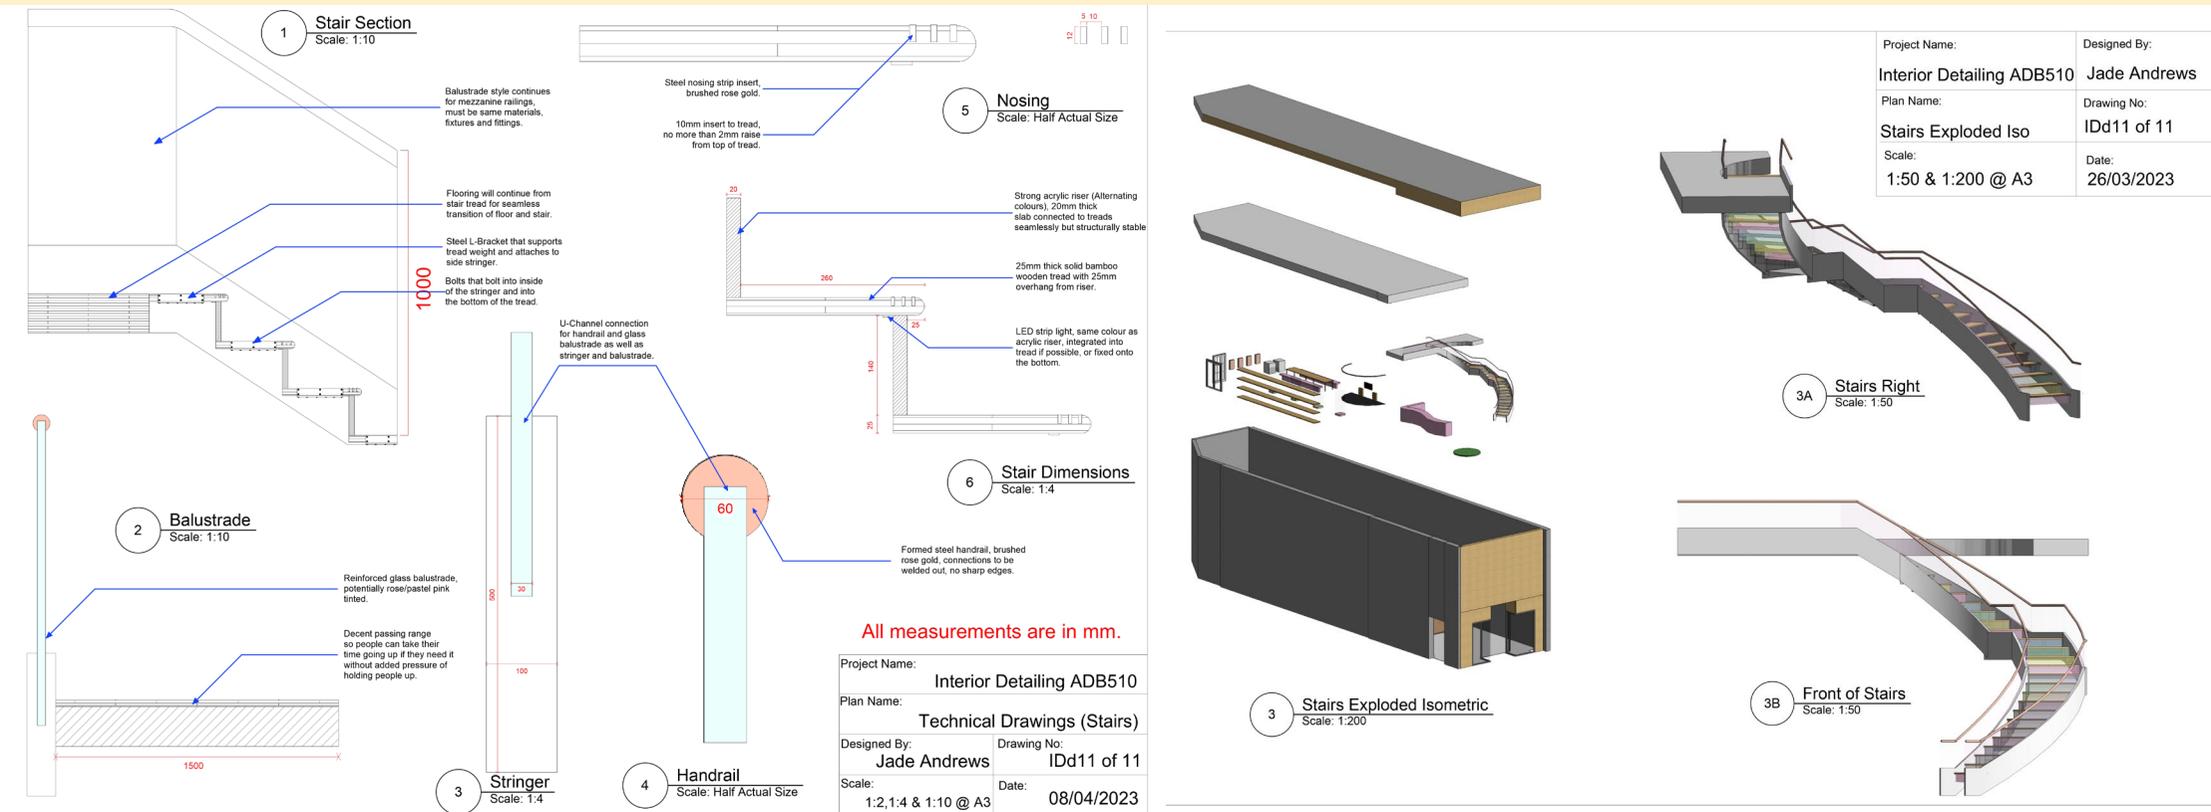

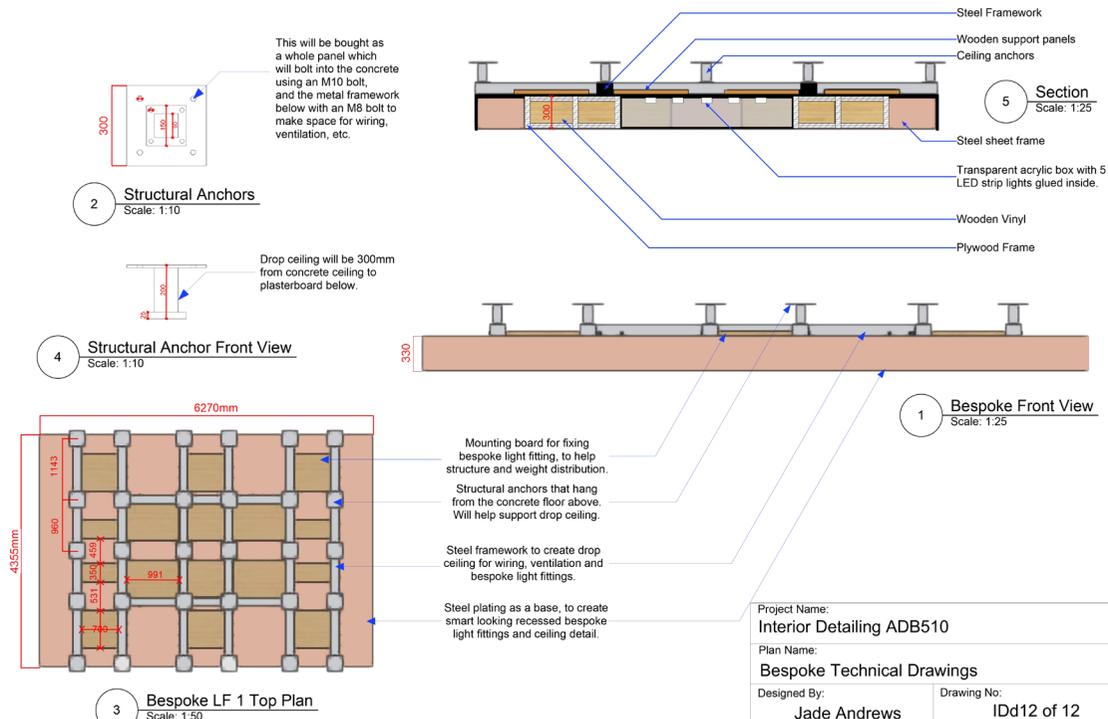

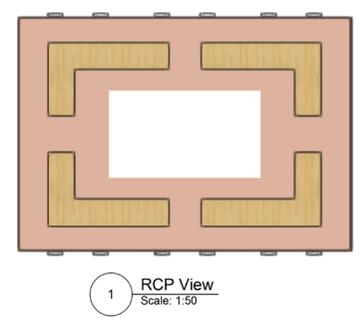

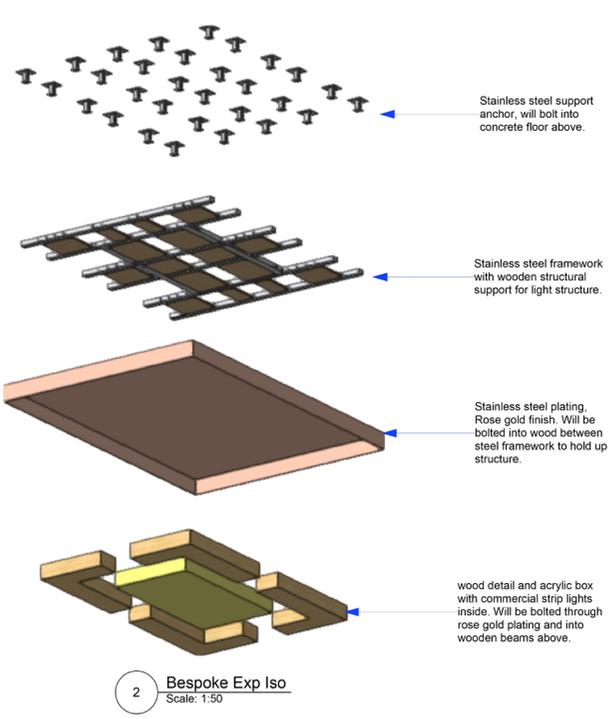

Bespoke Technical Drawings

Technical drawings for the custom staircase and bespoke lighting designs within the store.

A total of three different geometric lighting designs flow across the ceiling, each creating their own unique, jaw dropping effects that compliment the surrounding space generously, amplifying the stores exciting atmosphere.

Alongside them sits a luxury wide spiral staircase, fit with individually lit bamboo and pastel stained glass steps, finished with a shiny rose gold handrail, curves carefully around a fake cherry blossom tree at the entranceway.

3 Corporate
Design

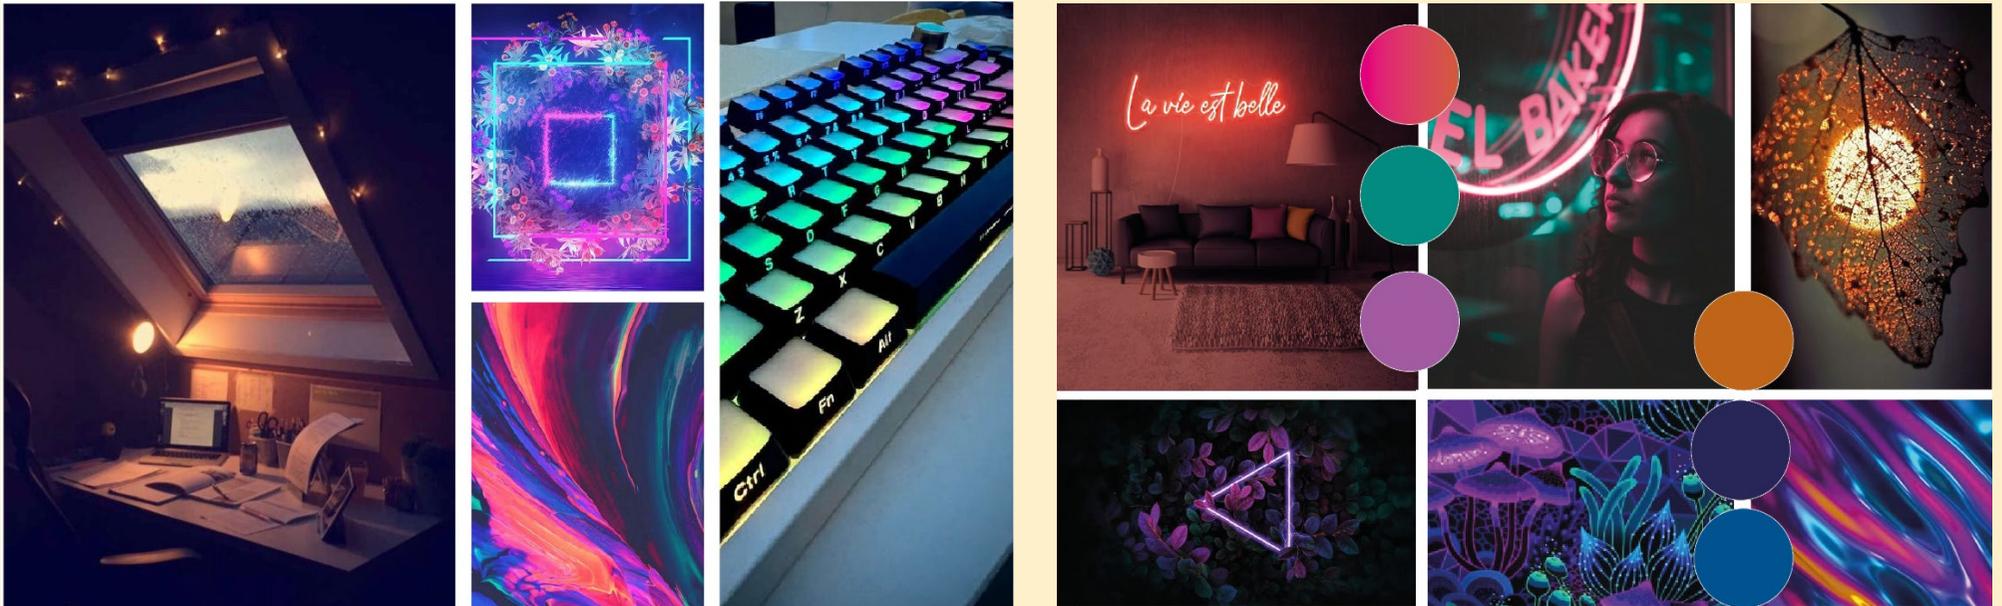

CD Projekt Office

in partnership with Morgan Lovell

The Concept & Mood

Bold and bright office design inspired by one of CD Projekt's most popular games, Cyberpunk. This design has a perfect balance of colourful neon and corporate basics, creating a fun and engaging atmosphere without heavily taking away from professional functionality.

"Neon Relaxation"

The Plans

The choice of using solid and functional materials in combination with a range of colourful products fill up the space with a precise balance. They express the essence of the concept in subtle certainty, whilst sticking to corporate necessities and considering employee comfort, creating a competent, engaging atmosphere for all.

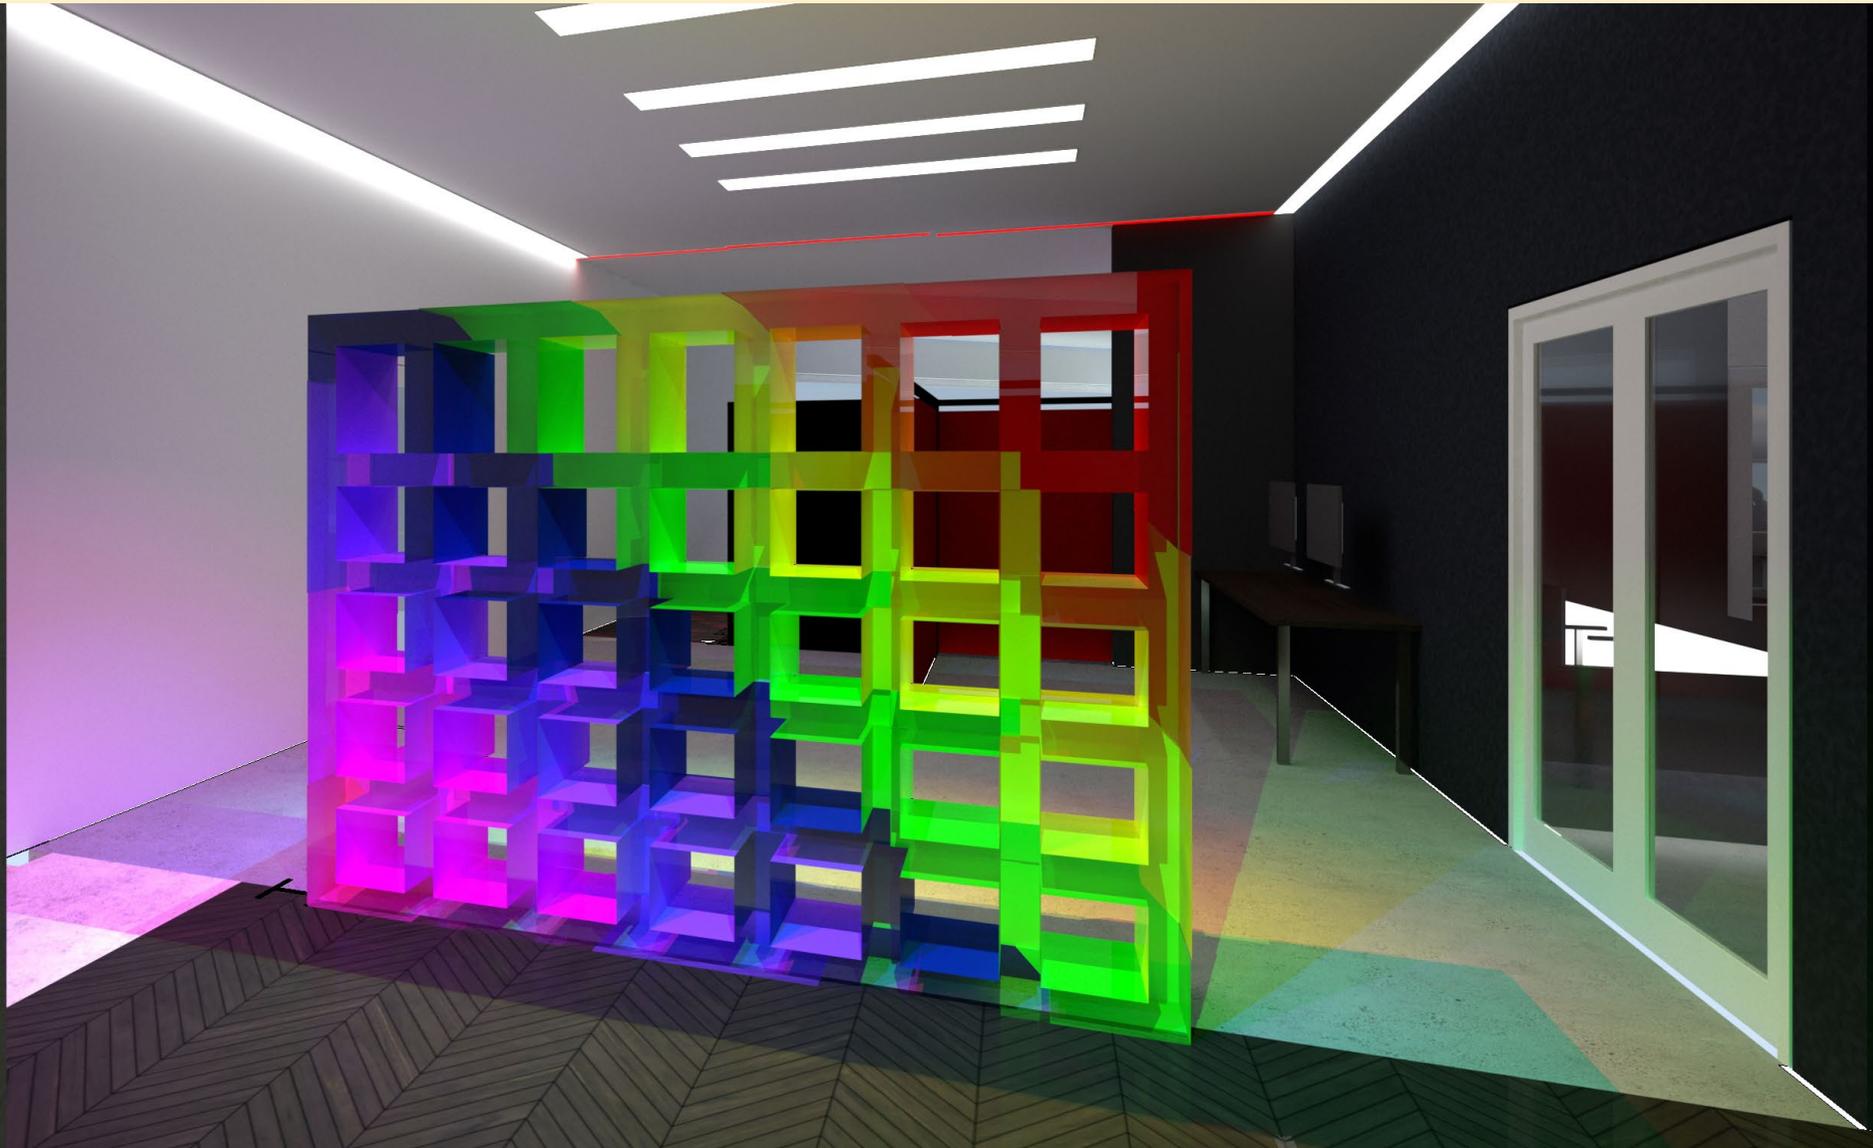

The cyberpunk theme radiates from this space, intriguing anyone that walks through the front door and into the offices simplistic reception.

3D Views

The best 3D views of the interior office space.

The balance of bright neon colours and greyscale cast a magical effect on the interior that brings excitement to an otherwise boring office space. Which helps to boost the morale of anyone walking through this dystopian atmosphere.

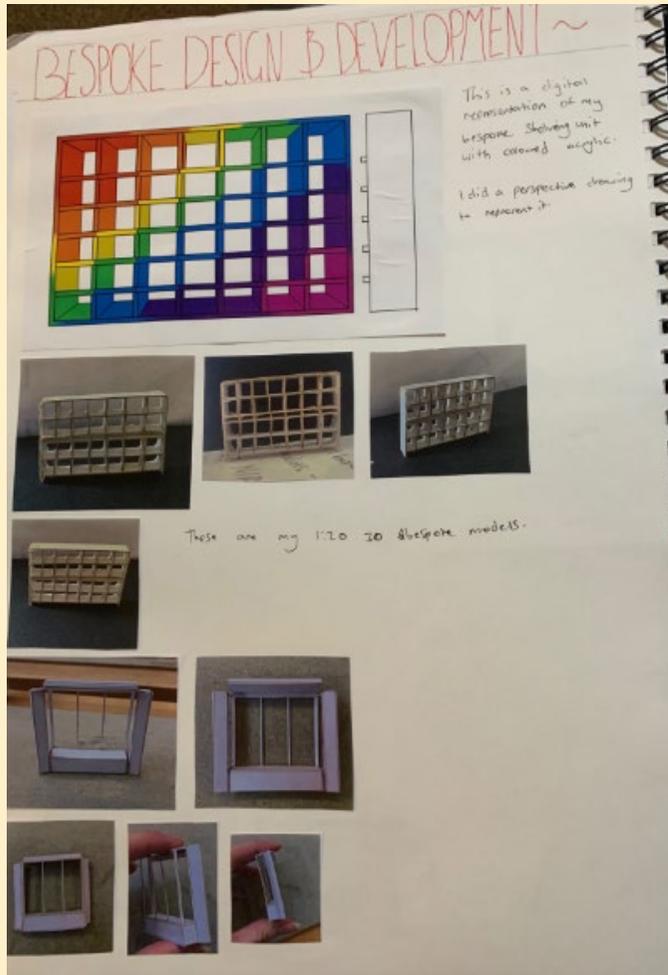

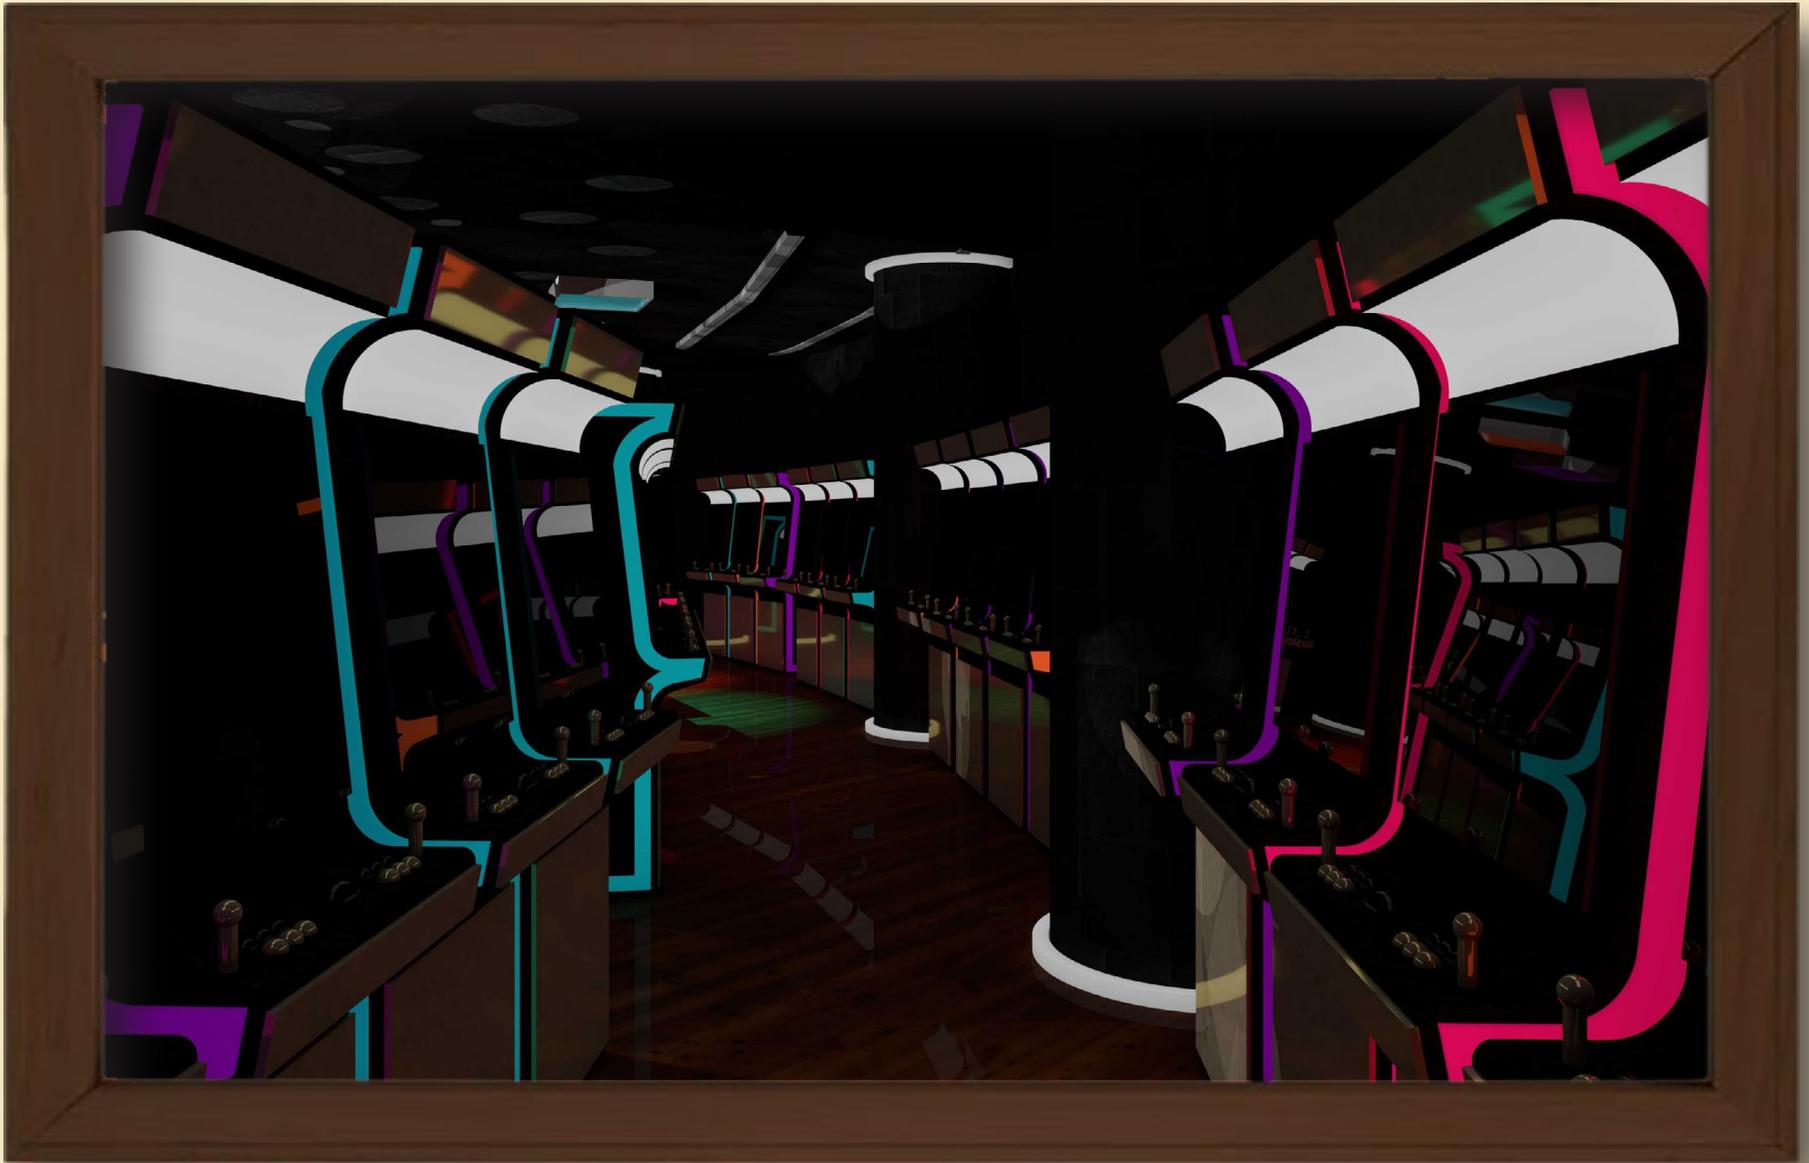

Hand Drawings & Models

The raw fundamentals that came with designing this interior space are shown below. From the messy sketches and shaky models, to the final drawn up plans that turned my design into what it is now.

4 *Leisure*
Design

Bowling & Arcade

The Concept & Mood

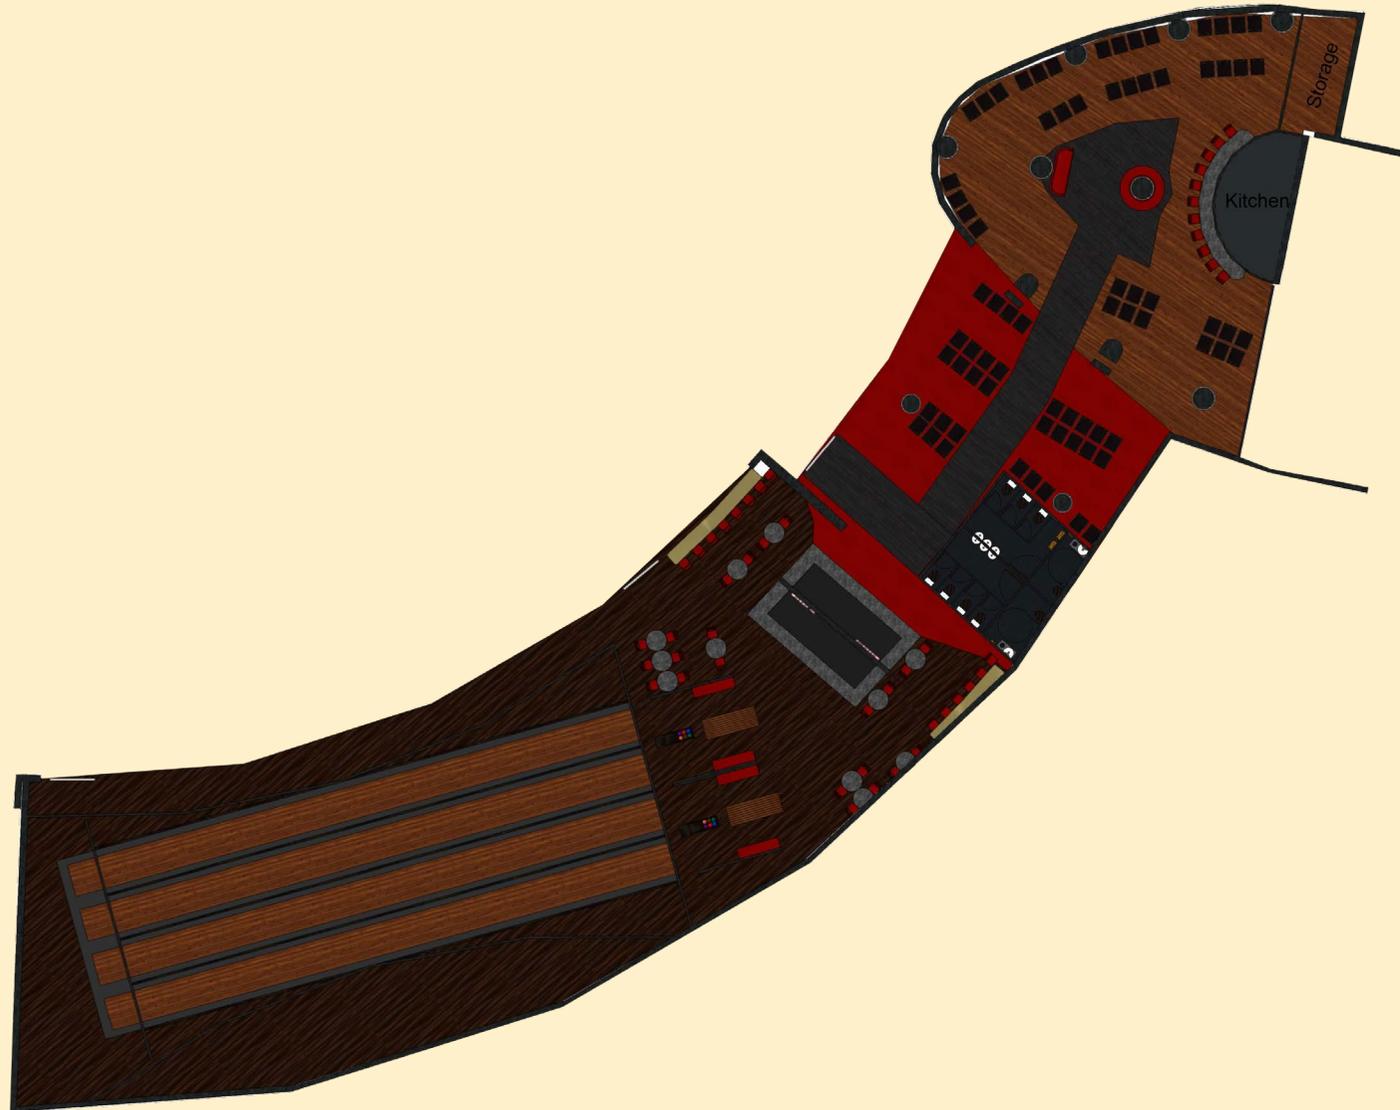

A flashy, punk, Japanese inspired arcade and bowling alley. Designed as part of a student based entertainment shopping centre in Gunwharf Quays, Portsmouth.

ARCADE & BOWLING

The Plans

These spaces are the luxury materials, plush bespoke booths and carefully picked light fittings of the restaurant, reimagined into an industrialised punk and futuristic world. It uses similar materials and lighting effects, whilst accessorising with a wider variety of colours and techy products.

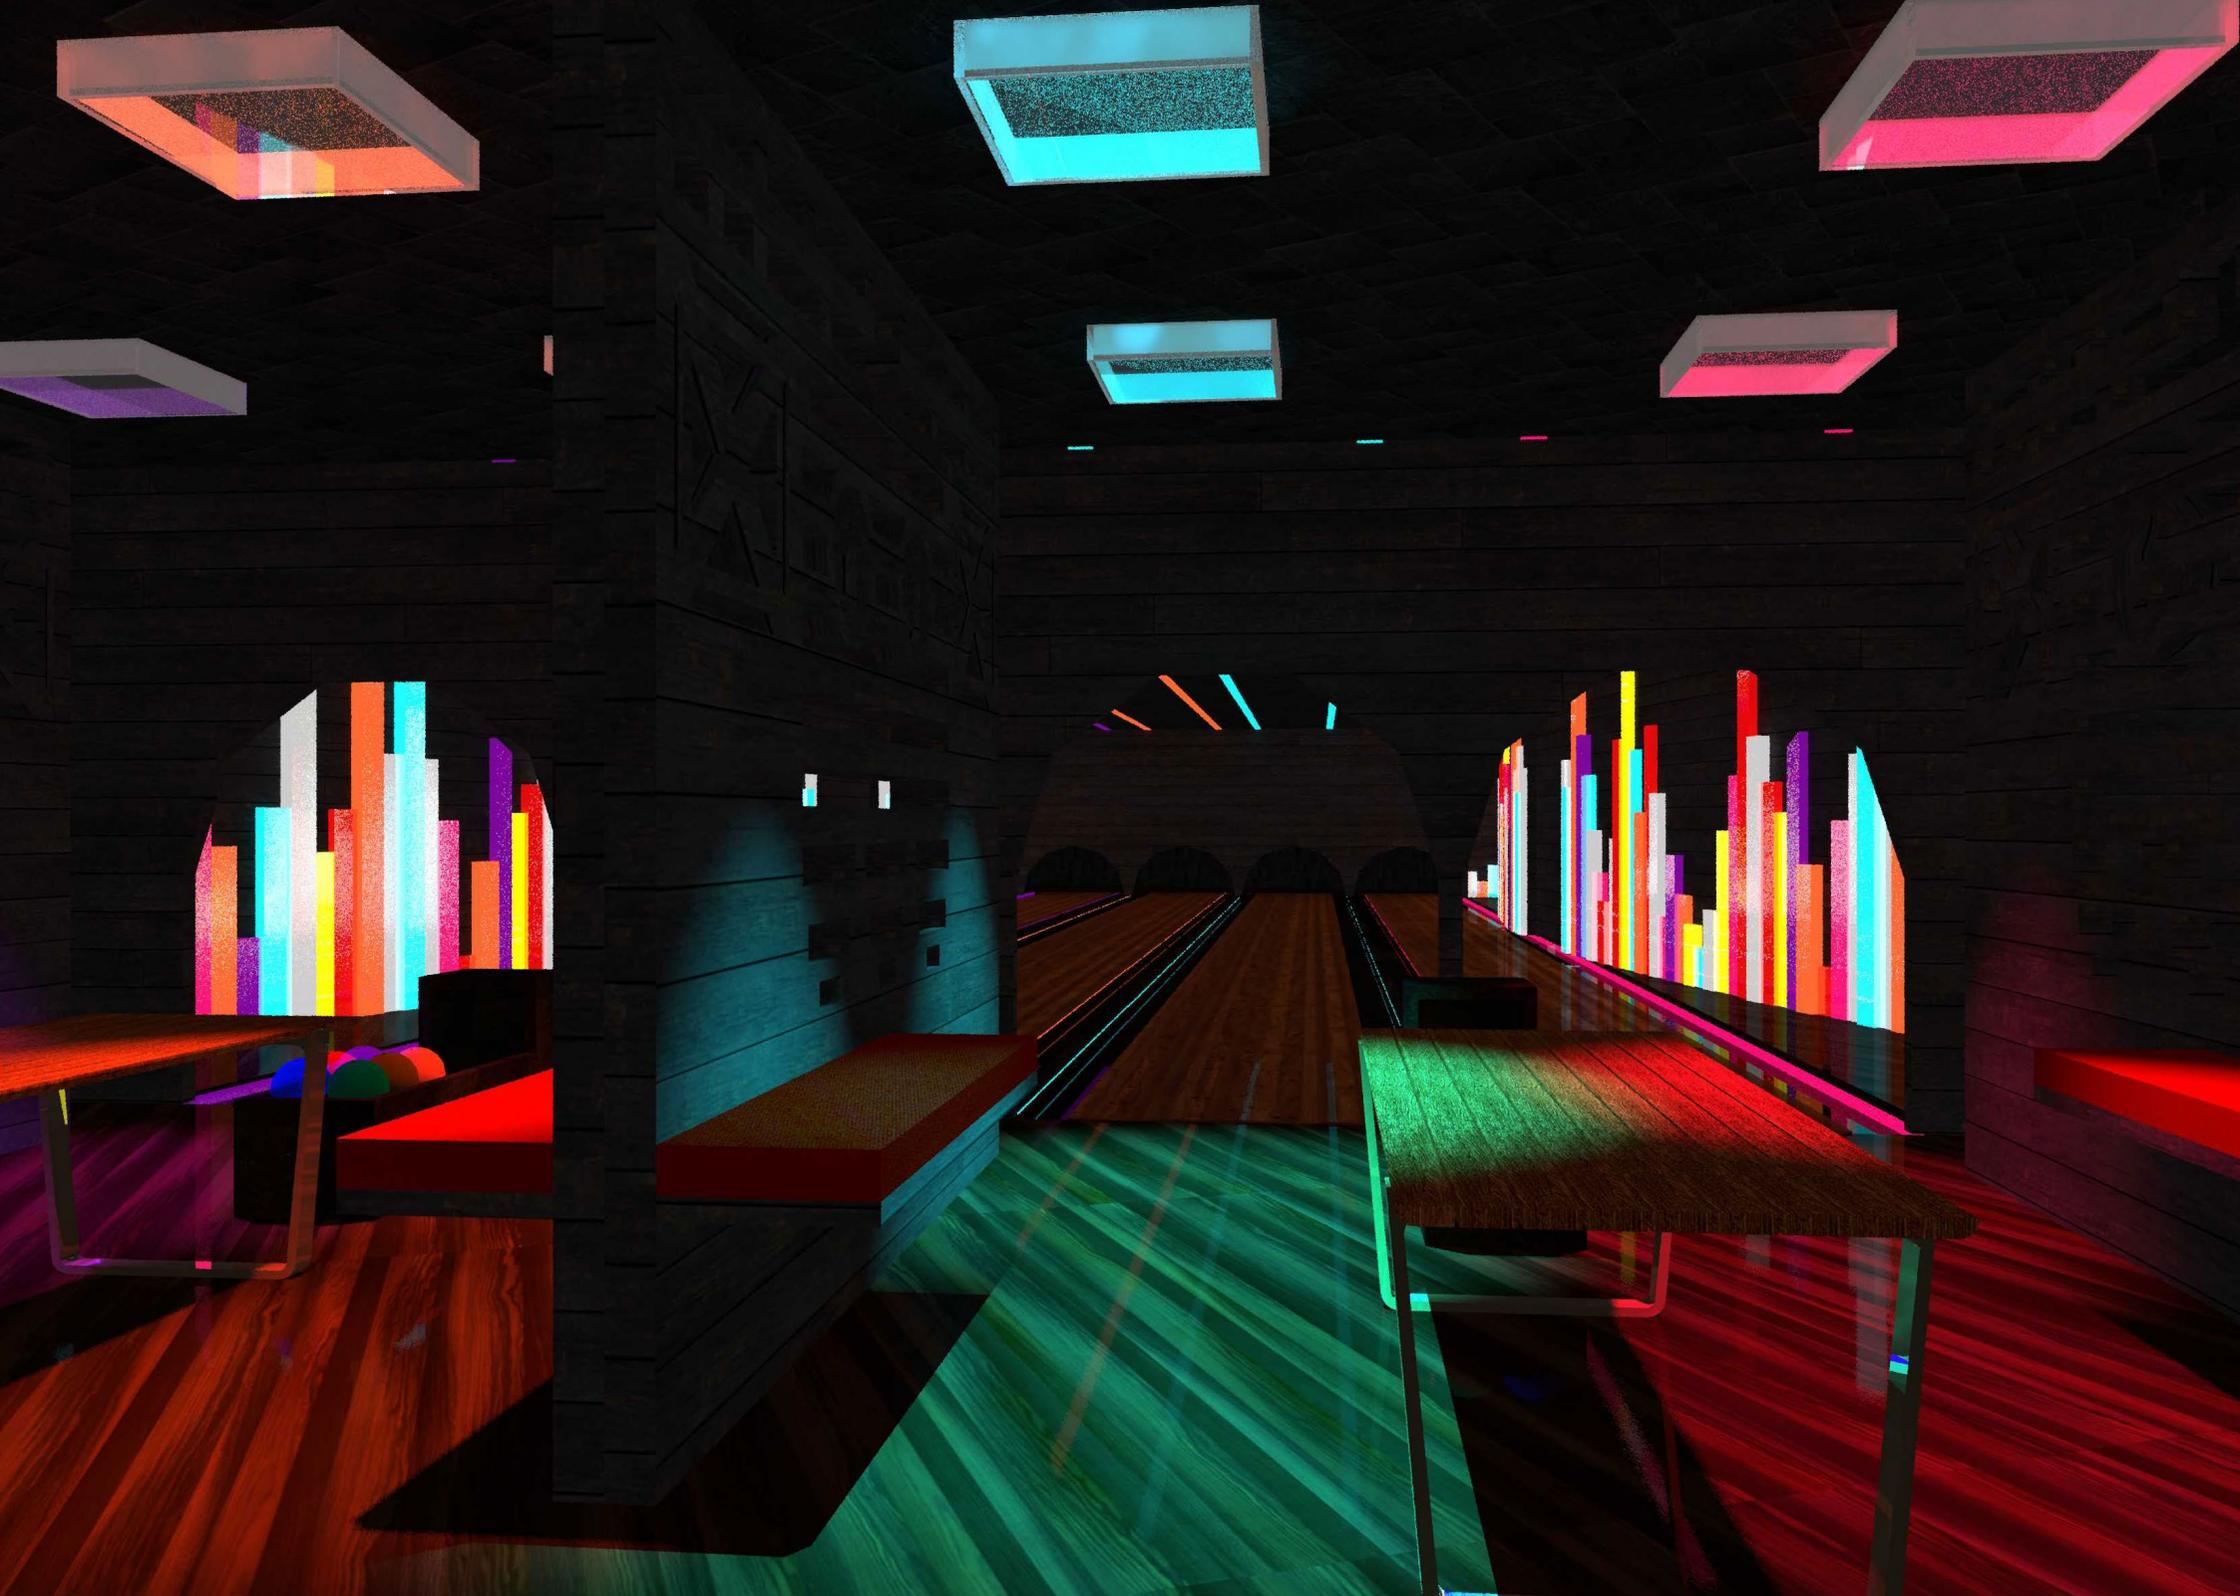

Bright colours and a mood for partying hits the customer as they fling open the large glass doors into these well equipped, joyful activities.

3D Views

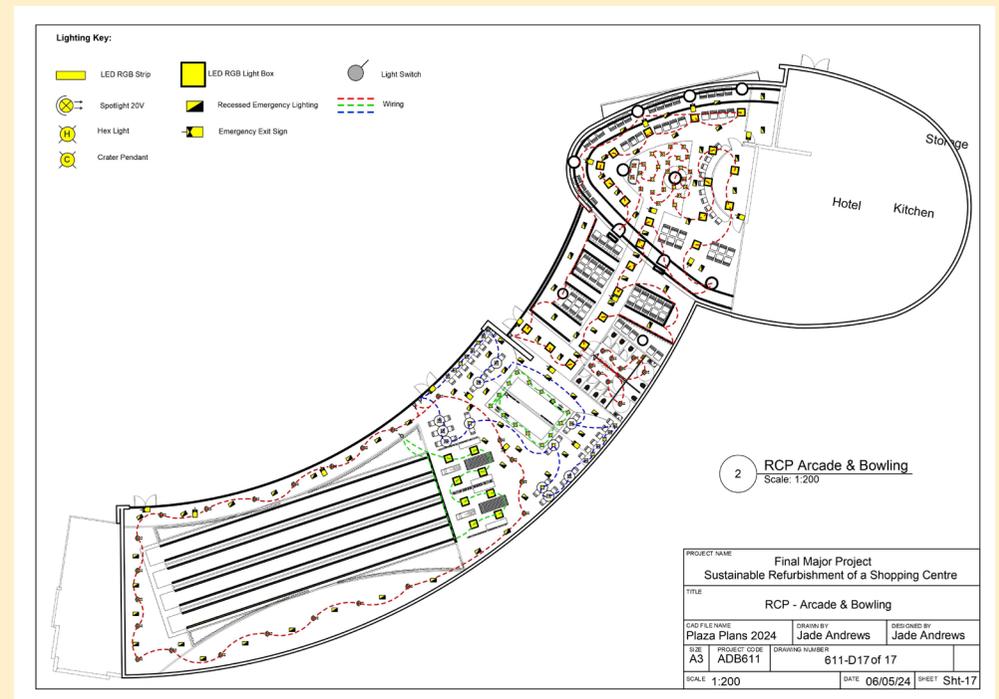

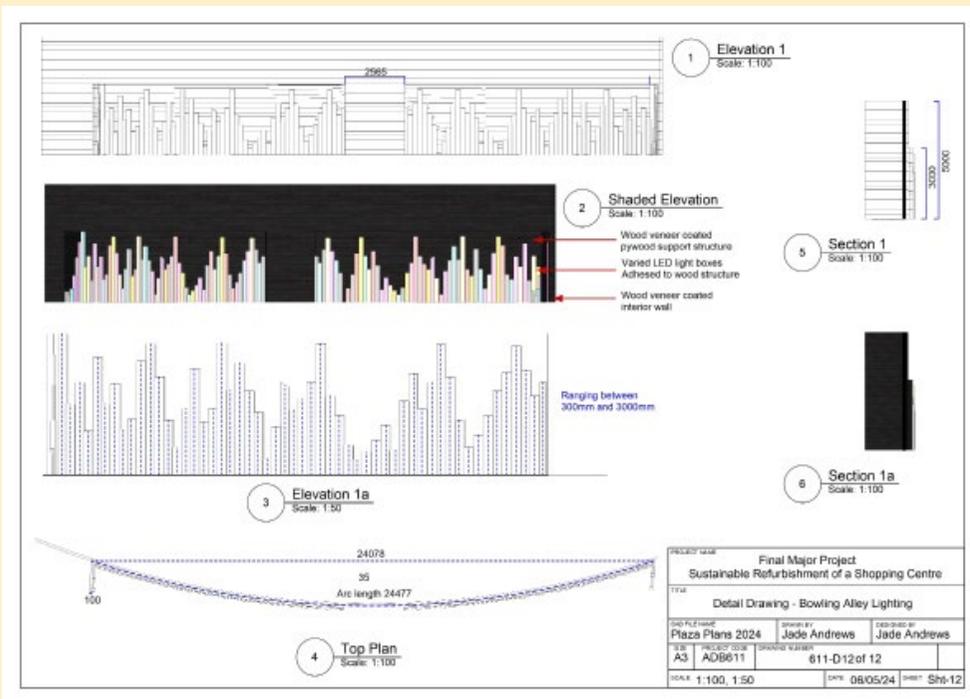

Party-esc lighting and vibrant arcade machines suffocate this space with a jaw-dropping, exciting atmosphere that is bound to make you never want to leave this happening venue again.

Bespoke Technical Drawings

Drawings specifying how to create the eye-catching spectacles on display within my arcade and bowling alley venue. They are the life of the party, complimenting the spaces with an expert precision that amplifies the carefree atmosphere.
